

Locker Room Renovation Begins September 7

- **Blue sections** will be completed first. The number of lockers and showers available will be limited, and for women, lower level restroom use will not be available during this time. Restrooms will be available on the mid and upper levels. For men, the urinals will be available during this phase.
- **Orange sections** will begin after blue sections are complete.
- During orange section phase of work, locker rooms will only be accessible through the back entrance - via the hallway off the stairwell/elevator.

All FFC Lincoln Park members will have multi-club access until the locker rooms are completed.
